	Facility Information	n		

Facility Name:	Facility ID #:	
Lockhart Grocery	46119	
Street Address:	City, State, ZIP:	

Instructions

- Your release detection equipment must be tested annually for proper operation.
- The code of practice that may be used is Petroleum Equipment Institute (PEI) Publication RP1200, "Recommended Practices for the Testing and Verification of Spill, Overfill, Leak Detection and Secondary Containment Equipment at UST Facilities."
- If an item listed in the Components Tested column is not applicable to your facility, record "N/A" for that item.
- List any additional release detection equipment in the Other Components Tested column.
- Have the Release Detection Tester record the test date in the space above the table, complete the testing and fill out the table below.
- In the last column, have the Release Detection Tester record the actions taken to fix any issues identified during the test.
- Have the Release Detection Tester sign and date the bottom of this form. Keep the form on file for at least 5 years.

Required Annually

Date(s) of annual release detection operation test: 10/01/2024
